

ISI Announces Dymek As The New Asia Distributor

SANTA CLARA, CA – Aug 29, 2018: Integral Solutions International (ISI), the world's leading manufacturer of Quasi-Static magnetic testers for the data storage industry for more than 20 years now, is pleased to announce that Dymek Company Limited has been added to part of the ISI's worldwide support and distribution team.

Having developed the world's first commercially-available MRAM Wafer Tester in 2009, as markets for STT-MRAM, Magnetic Sensor, and other magnetic-based semiconductor applications expand worldwide ISI recognizes the need for offering local sales and technical support to these expanding territories. Dymek is an excellent fit to provide this growing representation, and ISI is excited to utilize their service to strengthen its equipment market position in the MRAM industry.

About Dymek

Dymek Company Limited (also known as Dymek Asia Company) was established in 1989 as an advanced equipment distributor for Data Storage, Semiconductor, Optical and Photovoltaic Industries, as well as the R&D sector. Headquartered in Hong Kong, over the last 30 years Dymek has expanded its presence in Asia to 8 sales and support offices (covering all HDD manufacturing centers in SE Asia), including representation in China (Dongguan, Beijing and Shanghai), Malaysia, Philippines, Singapore, Taiwan and Thailand.

Apart from generating sales and marketing strategies. Dymek also deploys a strong engineering team to provide reliable technical support and maintenance service to valuable customers. Furthermore, Dymek is capable of providing equipment, consumables, accessory parts and around-the-clock technical support.

Following the company's traditional operations, dedicated engineers and in-house trainers will correspond and visit regularly with the ISI facility to receive advanced trainings and to keep abreast of the latest product developments.

To contact Dymek please visit their website at www.dymek.com , or feel free to contact ISI to arrange an introduction.

About ISI
